NOTES:

Parks and recreation measures were introduced in the 2004 Financial Information Return. The denominator of this measure is total population divided by 1,000 and does not represent the number of participants in recreation programs. Measures for 2006 changed by splitting indoor and outdoor recreation facility space.

GENERAL NOTES:

Due to the 2005 Boundary Adjustment, population and household numbers decreased for 2006. Accordingly, measures that use population or household in the denominator may have increased in 2006 due to this change.

2005 - Households - 2,617, Population - 6,947

2006 - Households - 2,555, Population - 6,436

2007 - Households - 2,507, Population - 7,000
