**Subject:** Re: July 16th Storm Data

I have contacted Mark Helston at the UTRCA. There is no relevant rainfall data for that storm because it was a very localized event. The nearest locations with rain gauges (Innerkip and Stratford) did not receive any extra ordinary amounts of rainfall at that time.

Subject

After the 2002 storm, you obtained data from Mark Helsten at UTRCA. Could you obtain the same for this storm event and provide a copy.

Thanks.
